§ 1160.20 Purpose.

The purpose of this notice is to notify interested parties of procedures under which the Department of Commerce provides a forum for discussion by private sector interests on the feasibility of establishing strategic partnerships, especially for the development and exploitation of large scale enabling technologies.

§ 1160.21 Definitions.

(a) *Strategic Partnerships.* *Strategic Partnerships* are multi-industry teams of firms and others formed to create and commercialize proprietary technologies, especially large scale enabling technologies, using a systems management approach. The design of and participants in a specific partnership will be solely at the discretion of the private sector. However, since these partnerships will be most effective when comprised of firms which can share proprietary information, it will probably be most useful if there are no competitors in the venture.
